

Dear FCC:My wife and I have chosen XM Radio based on their wide variety of programming choices and limited commercials. I feel very strongly that freedom of choice by the american consumer is something that should not be decided by a few in the media but rather by the many consumers who have voted with their dollars. Do not let a few decide what I and my american neighbors have clearly decided what they want. Let the american capitalism choice decide what we americans wish to listen and PAY FOR!

Thank you,

Marty and Sherri Gregg
